| SLO1: Public Health students will demonstrate the ability to explain a public health theory and apply that theory to a contemporary problem in public health planning. | Public health students will be tested on this measure using an essay question on a midterm exam. Data will be collected in the fall semester 2018 from 100% of students surveyed to explore the ability of students to carry out this task.  
**Measure 1:** Students should demonstrate the ability to clearly explain a public health theory  
**Performance Target:** 80% of students should score at least 4/5 on the associated rubric.  
**Measure 2:** Students should demonstrate the ability to apply a public health theory to a contemporary public health plan.  
**Performance Target:** 80% of students should score at least 4/5 on the associated rubric |
| SLO2: Public Health students will be able to identify and analyze the ways that mediated health messages reflect the contexts of race, gender, class, ethnicity, and sexuality. | Public health students will be tested on this measure using an essay question on a midterm exam. Data will be collected in the fall semester 2018 from 100% of students surveyed to explore the ability of students to carry out this task.  
**Measure 1:** Students should demonstrate the ability to clearly explain how the categories of race, class, gender, and sexuality are used to make persuasive public health messages.  
**Performance Target:** 80% of students should score at least 4/5 on the associated rubric.  
**Measure 2:** Students should demonstrate the ability to apply historical lessons to a contemporary problem in public health  
**Performance Target:** 80% of students should score at least 4/5 on the associated rubric |
| SLO3: In keeping with our mission to prepare students for a wide variety of post-graduation experiences, students engaging in internships for their capstone community service experiences should be perceived to be prepared for their internships by their site supervisors. | Data will be collected from 100% of students surveyed in the fall 2018 and spring 2019 semesters. The site supervisors answer the following questions (among others) on their evaluation of the internship program:  
**Measure 1:** Was your intern adequately prepared for her or his internship responsibilities?  
**Performance Target:** 90% of organizations hosting an intern will indicate that s/he was prepared for his or her responsibilities.  
**Measure 2:** Would you be willing to accept student interns in the future?  
**Performance Target:** 100% of organizations hosting an intern will indicate a willingness to accept a public health intern in the future. |
