| SLO1: Students will have the skills needed to establish the structure for a successful project. | **Measure 1:** This outcome will be assessed in PMGT 401. All students will be included in assessment. Assessment will be in the form of a simulation in which students establish a project structure from baseline information.  
**Performance Target:** Students are expected to achieve at least 70% proficiency. |
| SLO2: Students will demonstrate the ability to ensure the project scope delivers the expected business value and desired outcome. | **Measure 1 and 2:** This outcome will be assessed using quizzes and a major test in PMGT 311. All students will be assessed. Assessment will occur once per year.  
**Performance Target:** Students are expected to achieve at least 70% proficiency. |
| SLO3: Students will be able to develop and use various mechanisms to communicate project information. | **Measure 1 and 2:** This outcome will be assessed in PMGT 401. All students will be assessed. Assessment will be in the form of various assignments (written and oral) that require communication with clients and with members of the project team. These assignments will be developed by the instructor.  
**Performance Target:** Students are expected to achieve at least 80% proficiency. |
