Business Administration MBA – Student Learning Outcomes (SLOs)

SLO1: Quantitative Fluency
Students demonstrate proficiency in logical reasoning and data analysis skills used in the executive decision-making process as business managers and leaders.

SLO2: Global and Civic Responsibility
Students identify and define social, ethical, environmental and economic challenges at local, national and international levels. Students demonstrate proficiency in integrating their knowledge and skills in addressing these issues as business managers and leaders.

SLO3: Synthesis
Students demonstrate proficiency in integrating knowledge from multiple disciplines incorporating learning from both classroom and non-classroom settings in the completion of complex and comprehensive tasks undertaken by business managers and leaders.
